
ASSIGNMENT 01

USE CASES

Total points: 35

SUBMISSION DEADLINES

- **Task 01 (a):** 12th October 2021 (Tuesday), during lecture timings [individual]
- **Task 01 (b):** 15th October 2021 (Friday), on GCR, till 12:00 am [group]
- **Task 02:** 18th October 2021 (Monday), on GCR, till 12:00 am [individual]

INSTRUCTIONS

- Although this is a group assignment, you would have to work both individually and as a group.
- A group member will get points according to his/her performance, which may be different from the points of other group members.
- Task 01(a) and Task 02 are supposed to be done individually.
- Plagiarism/copying will result in absolute zero in this assignment.
- Read the tasks and their submission instructions very carefully.
- Mention your section, group number, and name of the project with your submissions on GCR.
- Late submissions SHALL NOT be entertained. Please do not come with excuses afterwards. Submitting earlier than the deadline is better than submitting late.

TASK 01: MODELING USE CASES OF THE ASSIGNED SOFTWARE SYSTEM

- a. For the assigned software system, every individual group member must draw a UML Use Case diagram separately from other group members. It must be hand-drawn. You must not use any software tool to create the diagram. Get it checked from me on 12th October (Tuesday), within the lecture timings. THERE IS NO OTHER DAY. [Points: 10]
- b. Sit in the group. Discuss every Use Case diagram, which was individually made and got checked. Make one, comprehensive and correct (and of course neat and readable), Use Case diagram. Again, it must be hand-drawn. Submit on GCR against this assignment. Only one group member should do the submission. Do not forget to write your section, group number, and name of the project with your submission. [Points: 05]

TASK 02: WRITING USE CASE DESCRIPTIONS USING FULL-DRESSED STYLE

Every group member is required to write full-dressed description of at least two different Use Cases. Submit the MS-Word document (only) on GCR individually. Mention your section, group number, and name of the project with your submission. Please remember that every group member has two DIFFERENT Use Cases to write their description. To ensure that, select Use Cases with the consultation of all group members. [Points: 10 + 10]
